

RECORDING STARS CONCERT - The Four Preps, recording stars and television performers, will make an appearance in the

Fieldhouse on campus Tuesday night as the first big name entertainment of the year.

Apartments And Dorm Unit Lead 1965-67 Developments

Apartments on University and Lovelace Streets and the east wing of Unit A dorm to be ready for occupancy within two weeks will be the first of a long list of developments planned for 1965-1967, Dr. Paul Meek announced.

Included in the list will be a student center and men's residence halls Units C and D, library, new roads, classroom building, and fine arts building.

The 96 women residents, who had reservations in the east wing of A dorm under construction, which was supposed to be finished by September 20, will be housed temporarily in the Main Women's Residence Hall. Beds will be put in the study rooms of the new addition of the Main Women's Residence Hall to accommodate 16 girls for about two weeks. The other girls will be taken care of through adding extra beds to some of the rooms in the old part of the same building. The west part of A wing, which will house 96 girls, is ready for occupancy.

Since the apartments for men, married students, faculty members and sororities will not all be completed, other arrangements have been made for housing. The two single bedroom units located on the north will be ready for occupants. These apartments will house about one-third of the total number of students that were supposed to house the entire development plus one extra person for each apartment for two weeks.

Other boys will be housed in the Wagon Wheel in the basement of the boy's dormitory and in the over-night lodging area of the Women's Physical Education Building.

A \$1,500,000 student center is now under construction and is scheduled to be completed by September 1966. The two-story air conditioned building, located on south campus immediately west of the Women's Residence Hall, will have a total floor space of 59,600 square feet.

Plans for a new \$1,516,000 library have been completed

and construction is expected to be finished in the 1966-67 school year. The library will be located northwest of the student center.

Campus drives, curbs and sidewalks are being developed and extended. To the south of the old road, in front of the Main Women's Residence Hall, a new road has been completed which will make it possible for occupants of the women's dorms to reach an out road while Highway 22 is under construction. Another road running from the student center south to Hannings Lane has been opened. The new road constructed from Lee Street west to the road going to Hannings Lane running between Unit A Dorm and the Main Women's Residence Hall is open now.

The University will share with the city of Martin in the improvement of the widening to four-lanes of University Street by the State Highway Department. The new highway will follow the route of Highway 22 and will extend through the campus and to the western city limits, Dr. Meek concluded.

Two new facilities, a classroom building and a fine arts building, are in initial planning stages, Vice president Meek stated.

Sophs-Jrs Photos Are To Be Taken

Sophomore and junior students' pictures will be made during the registration process September 22 and 23, Wayne Tansil, public relations director, announced recently.

Students should come appropriately dressed. Male students should wear a coat and tie. These pictures will be used in the yearbook.

Pictures will be made in the new Physical Education Building at The University of Tennessee Martin Branch where the final registration will be, Mr. Tansil added.

The Four Preps Scheduled Here For Tuesday Night

The appearance of the Four Preps September 21 at 8 p.m. at the Fieldhouse is the first of big name entertainment for the campus this school year, Sam Nailing, chairman for entertainment, announced Monday.

Tickets are on sale for \$2 at the Student Government Association office of The University of Tennessee Martin Branch, from any student senator or at the Collegiate Shop in Martin. Tickets will be sold at a table during orientation and registration, Mr. Nailing added.

The Four Preps began their vocal recording in 1957 for the Capitol label with their record "Dreamy Eyes." Their million seller "26 Miles" or "Santa Catalina" in 1958 and "Big Man" which almost reached the million seller too, helped them become the "Most Promising Vocal Group" of 1958 in the CASH BOX MAGAZINE poll.

Other hits of the Four Preps are "Down by the Station," "Big Surprise," "Lazy Summer Night," and "Cinderella," which they sang in the motion picture "Gidget."

They have made appearances at colleges in every state of the union. Recently at the University of Minnesota, University of British Columbia and University of Illinois, they broke all existing attendance records.

One of the members of the team Ed Cobb, the tallest of the group, was an All-City football player of Hollywood and attended Los Angeles City College.

Marvin Ingram, a native of Shreveport, Louisiana, received his bachelor's degree from the University of California at Los Angeles. Glen Larson holds the record in the 400-yard dash at Hollywood High. He is a native of Long Beach and also attended Los Angeles City College until he became so involved in his singing career. Bruce Belland, the shortest of the group at 5'6", holds the 100-yard dash record at Hollywood High. He was born in Chicago.

Orientation, Registration Scheduled For Tomorrow

Orientation and registration for the University will begin September 20, announced Henry C. Allison, registrar.

Freshman and transfers are scheduled to register Monday, Tuesday, and Wednesday with the seniors registering Wednesday, explained Mr. Allison. He said all other students will register Thursday, and classes will begin Friday.

Final Registration Will Be Sept. 22, 23

Final registration process for seniors and new students will begin September 22, and September 23 will be the registration of sophomore and junior students.

Almost all of the registration process will be completed in the Physical Education Building, Henry C. Allison, registrar, announced Tuesday. Before this fall, the process was located on different floors of the EPS Building and required lots of moving, and it is hoped that this new method will be less complicated and smoother, he added. The process will begin at 8 a.m. by students reporting to their department heads. At this time, a tentative class schedule is planned and enrollment cards are signed by the department heads.

The second stop, Mr. Allison said, is the business office in the Administration Building where students will present enrollment cards and pay fees.

All of the final registration procedure will be in the Physical Education Building. Students will have enrollment and pre-registration record cards checked at the south lobby. Students will enter through the lobby to the gymnasium where they will report to departmental advisors for counseling and then will gather their class cards at tables 1 through 15. By having one advisor from each department in the building, the students can settle schedule problems arising in the line, eliminating the return to their department heads as before.

Students will pay class dues and club dues in the north lobby of the building. As students leave the lobby, they will continue in line to the tables where they can fill out their class cards, a student directory card, religious information card and address card. They will leave the religious information and student directory cards at the station and can obtain a post office box number, register automobiles and obtain student insurance if preferable.

At the entrance to the front lobby, their schedules will be checked and students can enter the front lobby to copy their class schedules. These schedules will be in quadruplicate for obtaining one for personal use, two copies with the supervisor, and the original copy should be submitted to the desk located at entrance to front lobby.

The final station is in continuation of the process where students will leave their enrollment card, address card, P.R.R. card and class card for each class scheduled.

The health card can be checked in Room 13 of the building and photographs will be made in Room 15. The Psychological Test and ACT test are scheduled to be given in the basement of the building.

On Monday from 8 til 9 a.m., all new students are to attend an assembly in the Physical Education Building where Dr. Paul Meek, vice-president of The University of Tennessee in charge of Martin Branch, will welcome the group. Also, Mr. Allison, H.B. Smith, Dean of Students and Larry Bates, president of student government, will explain registration procedures, personnel services and student organizations on campus.

At 9 'til 12 a.m., the students will attend departmental meetings in different buildings which will be designated at the preceding assembly. At these meetings, they will complete classification cards and draw registration numbers.

From 1 to 5 p.m., approval by the health department for returning students will be made in Room 13 of the Physical Education Building, music placement test for elementary education students will be given in the Music Building auditorium, and entrance credits will be checked in Room 112 of the Administration Building. Also, photographs of new students for the Yearbook will be made in Room 15 of the new gymnasium.

From 1 til 3 p.m., men's swimming tests will take place in the pool of the Women's Physical Education Building. Women's swimming tests will be given from 3 til 5 p.m. in the same building.

The University Marching Band will meet for the first time from 4 'til 5 p.m. Monday and will have a practice each day.

Completion of all tests, approvals, and checking that is not done Monday can be completed by the new students on Tuesday and Wednesday.

A welcoming party has been planned for Monday night.

Beginning Tuesday at 7:45 a.m. and ending at 12 a.m., the American College Test will be given in Room 3 of the Physical Education Building to all first quarter freshmen who have not previously tested. If previously tested, students will resume the completion of the scheduled items not finished Monday. From 7:45 til 9 a.m., all transfer students must take the psychological test to be given in the same room with the ACT exams.

Choralairs tryouts, a select vocal group, will be given from 9:30 til 4 p.m. in the Music Building. Night entertainment planned will feature the "Four Preps" in a concert in the Physical Education Building.

Seniors and freshmen will begin complete registrations for courses at 8 a.m. and complete them by 5 p.m. Wednesday.

Thursday, sophomores, juniors and all other students will register for courses in order of registration numbers. Cheerleaders election will be held in the Main Physical Education Building from 4 til 5 p.m. Thursday. Church programs have been planned at five churches for Thursday night.

Friday night a barbecue is being sponsored by Martin merchants and businesses for all students. The event will be held in the I.C. Park located on University Street across from Martin City Hall and will begin at 7 p.m.

The Volette - Martin, Tennessee, Sunday, September 19, 1965

Business Office Is Accepting Student Employment Applicants

Applications for student employment are now being accepted at the business office, announced Larry York, business officer.

The UTMB student employment comes under two divisions, the College Work Study Program and the regular student employment, differing in eligibility requirements and wages. Positions filled in both divisions are located in the different departments, food service, administrative offices, university maintenance and other such places on campus, said Mr. York. He explained that the regular student employment placement sometimes places students in part-time jobs available in businesses in town.

In explaining the College Work-Study, Mr. York pointed out that the program is one of the federal government's new plans to promote part-time employment of students from low income families and in need of employment assistance in order to continue their college education.

To be eligible, the student must be a United States citizen, be capable of maintaining good standing in his course of study and have been accepted for enrollment as a full-time student, or is a full-time student in good standing. To qualify as a low-income family, the combined annual income of the parents cannot exceed \$3,000 except where the parents have other dependents besides the student. An additional \$600 per extra dependent will be allowed beyond the \$3,000 up to \$5,000. The final decision as to eligibility for job consideration and placement is done by Mr. York.

Students employed in the program may work a limit of 15 hours per week, or 40 hours per week during vacation periods. The present pay rate is \$1.00 per hour.

Thirty-two students participating under this employment program during the summer period from June 1 to September 20, will have earned approximately \$9,194, informed Mr. York.

"We are getting a large number of applications for the coming year. It may be difficult to place all who apply. This can only be determined after registration this fall. I am still taking applications though, in hopes that the increased enrollment will create new jobs," he said.

Programs Planned For Church Night

Various churches in Martin are planning a program and activities for college students Thursday night.

"Space Blast" is the theme of the party sponsored by the Baptist Churches and will begin at 7:30 p.m. at the First Baptist Church. The party will conclude at Central Baptist Church.

The Church of Christ group will stress "Tennessee Spirit" at their barbecue supper and party. It will begin at 6:30 p.m. in the church building, at Oxford and Mill Streets.

A picnic supper, hayride and hootenanny are in store for the Cumberland Presbyterian students. The supper will be at 6 p.m. in the new Education Building at the church, located on Main St. A marshmallow roast will climax the party.

The Wesley Foundation's party will start at 6:15 p.m. with students assembling at the center for rides to the Methodist Church. The program of variety acts will begin with a barbecue supper.

St. John's Episcopal Church is entertaining Episcopal preference students beginning with a supper at 6:30 p.m. at the church.

In regular student employment, eligibility is determined by a displayed desire to work in available positions, explained Mr. York.

He said that under this division of student job placement, the wage rate is 75 cents per hour, and the number of hours worked each week is usually ten. Although most of the job placements in this division are done by the prospective employer, he will assist by answering questions and giving suggestions.

Activity Fee What's That?

BY FREDA NEAL

Student Activities Fee! What's that? This is the question many will be asking as they go through the paying line during registration.

In answer to the question, it is this that helps provide for UTMB's activities on campus that add excitement to their college life. The student activities fee of \$7 is collected by the Business Office and is later refunded to the various organizations on campus that affect all students. All students, except part-time and athletic students, are required to pay the fee.

Exactly what organizations receive portions of the fee and how much do they get?

Five dollars of the fee goes to the Athletic Department to pay the students admission to intercollegiate football, basketball, baseball, and tennis games at Martin and to pay expenses of the cheerleaders.

Forty cents goes to the student government. Twenty-five cents is spent on music activities which include the concert series and choir and Choralair expenses. The Drama Department will receive 15 cents. The miscellaneous receives ten cents to sponsor homecoming activities, bands coming to campus and other such items.

Of each seven dollars, THE VOLETTE and THE UTMB VOLUNTEER each receive 50 cents. VISTA, a literary publication, receives ten cents.

In addition to the student activities fee, income from the vending machines on campus are used as a source of help for student activities. Each curriculum club receives \$50 and then 25 cents for each student in the club. The dormitories are allowed to keep one-half of the profits from all the machines in the building to use for expenses of activities.

Faculty Recital Features Stewart

The first faculty recital of the 1965-66 series will feature Robert Stewart September 27 at 8 p.m. in the Music Building auditorium, announced Miss Harriet Fulton.

Mr. Stewart, assistant professor in piano and theory, will be accompanied during the concert at second piano by Miss Fulton, chairman of the music division. The program will include the concerto in A Major, K.V. 488 by Mozart, Sonata in F Minor, op. 57 "Appassionata" by Beethoven and Le Tombeau de Couperin by Ravel.

The recital is open to the public and will be free of charge.

Other recitals to be presented throughout the year will include Nelson and Neal, duopianists; Johnnie Stout, soprano; E.J. Eaton, trombone, and Edward Lanning, clarinet. The dates will be announced later.

Carl Giles Named Volette Advisor For School Year

Carl H. Giles will fill the position of instructor in journalism for the academic year.

He also will serve as faculty advisor to THE VOLETTE, weekly student newspaper.

Mr. Giles received the master's degree in journalism from West Virginia University in 1965. During that time he was lecturer on feature writing. His master's thesis, titled Contemporary Expose Journalism, is currently under consideration for publication by a major New York house. The bachelor's degree was earned by him at Florida

CARL H. GILES

Southern.

His published credits include more than 25 non-fiction articles and short stories of the mystery, adventure and satirical genres.

Mr. Giles has several stories scheduled for publication soon. A Hollywood agency placed in April and May three short stories and one article with the publishers of men's slick magazines.

ADAM magazine recently purchased an article from him concerning the Randall Knife which is the same blade carried by our astronauts each time they are blasted into space.

Mr. Giles is also active in professional journalistic societies and organizations, being a member of Sigma Delta Chi, Quill and Scroll.

He taught in the Terry Parker High School at Jacksonville, Florida, for two years.

Mr. and Mrs. Giles live at 302 Church Street. He is a Baptist.

Panhellenic Council Will Sponsor Rush Week For Campus Coeds

The three sororities will sponsor Rush Week at the tentative dates October 14 through October 17, Mrs. Mary Lynn Benson, Panhellenic Council sponsor, said.

The deferred date is so the sororities will have time to decorate and complete the new apartments located in the picnic grove, she explained.

Coeds, who are interested in a sorority, can attend a Panhellenic Tea the Sunday before Rush Week, so that they can become acquainted with the purposes and objectives of the sororities. At this time, they will register for rush.

The three sororities on campus and the dates of organization are Alpha Delta Pi, March 18, 1961; Chi Omega, March 18, 1961, and Zeta Tau Alpha, May 13, 1961.

To become a sorority member one must go through formal rush and be selected by members to receive a bid. This entitles the rushee to become a pledge of the sorority she prefers. After fulfilling the pledgship requirements, she can become a member.

Among the activities of Alpha Delta Pi are charity projects, socials and the awarding of the Fraternity of the Year Award.

Chi Omega promotes

charity activities and presents a Social Science Prize annually to an outstanding coed.

Making Thanksgiving Baskets, collecting for the Cancer and Easter Seal Drives and assisting in the mentally retarded school in Martin are some of the projects of Zeta Tau Alpha. Banquets and the White Violet formal dance are among the socials for each year.

Welcoming Party Scheduled Monday

Final planning of the Freshman Welcoming Party, sponsored by the student government, is underway, Ann Freeman, chairman of the event, announced.

The party to be held at 7:30 p.m., September 20, will follow the theme T.V. Show and will be a preview of the outstanding events on campus of the coming year. Following the preview, students will divide into five groups with leaders dressed as television characters such as Matt Dillon and Kitty and The Munsters.

Following the event, "The Oxfords" will provide the music for a dance on the parking lot west of the Agriculture-Biology-Library Building.

Wesley Foundation Announces Plans For Proposed Addition

A new addition to the Wesley Foundation Building will be begun soon and will be completed for the 1966-67 school year, the Reverend Bill Nace, director of Wesley Foundation, said.

In addition to the already 2,910 square feet, the new addition will total 3,870 square feet plus 2,040 square feet for a court and terrace.

The present lounge will remain next to the prayer room but will have a partition separating it and the present assembly-dining room. A fireplace will be added to the south wall of the lounge.

The present assembly-dining room east of the lounge will become a fellowship-game room. The wall between the director's office and the work room directly by it will be removed to become the library. The present kitchen and restrooms will remain as they are.

The new addition, including an auditorium-dining room, caretaker's quarters, courtyard, director's office, secretary's office, workroom, and kitchen, will be connected to the north side of the present building.

The main entrance will be changed to the doorway leading into the new addition. The director's office, secretary's office, and workroom will be located in the northwest section of the proposed addition. Directly behind these will be a large auditorium-dining room area constructed along the lines of a chapel. At the ex-

Freshman Program Begins SNEA Year

A freshman orientation program September 27 will initiate the activities of the Students National Education Association.

Education majors are eligible for membership in SNEA. Miss Louise Hunt, SNEA sponsor and an education professor, said Tuesday that tentatively planned projects include working with the retarded children's program in Martin, sponsorship of Future Teacher Clubs and selection of a talent scout committee.

The organization also plans to publicize the graduate program in education which will be launched in the summer of 1966.

Engineering Club Will Hold Meeting

Engineering students, who are interested in becoming members of the Engineering Club, can attend the first meeting Monday at 6:45 p.m. in the Engineering-Physical Science Building.

It is a professional type of organization, James O. Jones, sponsor, said, which tries to help students decide on the type of engineering in which they are interested. The club brings in different people of professions to talk to the students about engineering.

The Engineers' Ball, one of the major social events of the school year, he stated, is sponsored by the Engineering Club. This is usually the weekend before Thanksgiving.

Home Ec Chapter Will Sponsor Tea

The Home Economics Chapter will entertain all freshmen, transfer home economics students and parents at a tea at the Home Management House September 26 from 3 till 5 p.m.

This will give new students an opportunity to meet the home economics faculty members and sponsors of the Chapter.

Chairman of the tea is Marianne Margrave.

treme east end of this area, an altar and stage will be built with dressing rooms on each side and places for an organ and piano at the front side of the stage. The auditorium will seat 200 to 225 people and serve 150 at a banquet.

A courtyard has been planned in the center of the building directly south of the auditorium-dining room and east of the library.

A door on the southeast side of the auditorium will enter into the kitchen area. The kitchen will feature a built-in stove in the center of the area, dishwashers, and other such appliances.

Next to the kitchen on the south side, the living quarters for two student caretakers is located. A terrace is located directly behind the caretakers and kitchen area.

A circular drive will be constructed at the front of the building and a road at the north side of the new addition will lead to a parking lot at the back of the building large enough for 13 parking spaces.

Liberal Arts Club Schedules Meeting

New students in the liberal arts curriculum are automatically members of the Liberal Arts Club upon payment of dues of 50 cents per quarter, according to Dr. Norman Campbell.

Dr. Campbell, head of the Liberal Arts Department, is an ex officio sponsor. Robert Todd, instructor in English, is the present sponsor of the club.

Liberal Arts students are invited to attend the first meeting which will be at 7 p.m., October 4, Dr. Campbell added. The club meets on the first Monday evening of each month. Since students in this department have a variety of interests, programs are selected on many topics. The year is culminated with a banquet which is usually paid for through the club's treasury.

Planning and staging the campus-wide All-Sing each year is the principal project of the Liberal Arts Club, he said. Another project is the provision of scholarships for deserving students in liberal arts. The club also sponsors entries in the homecoming parade, the Beauty Revue, and other campus activities.

Open House Begins Wesleyan Group's Year's Activities

Open house, September 19 from 3 till 5:30 p.m., is being planned at the Wesley Foundation, William Nace, director, announced Wednesday, as the first of the activities planned for the year.

This will give freshmen, transfers and returning students an opportunity to tour the building and join in a get-acquainted session, he stated.

Activities scheduled for the year include study groups, fall and spring retreats, Christmas and spring banquets, State Methodist Student Movement and special programs. A Wesley Choir will also be among the activities offered this year.

The Board of Directors will meet September 20 at 7:30 p.m. to discuss plans for the year's activities.

The council has planned that October 10 will be Church Affiliation Sunday for students at The Methodist Church in Martin. Those desiring to make the Martin church their church while in college will have the opportunity to become affiliate members at that time, he explained. A student does not move his membership from his local church, but makes it known that he wishes the Martin Methodist Church to be his church home while in college.

Sunday School, held at the Wesley Foundation, is another activity of the council, he said. The lesson is taught by Rev. Nace each Sunday at 9:45 a.m. A fellowship supper is planned in the evening at 5 p.m. with Wesley worship at 7 p.m. Each Wednesday night an evening program is planned at 6 p.m. for the students.

English Group Open To Literary Students

English majors and minors are eligible for membership in Sigma Tau Delta, professional English fraternity.

Students must share an interest in written and oral literature and have the rank of sophomore. The Omega Theta Chapter publishes Vista, a literary magazine, and members must contribute manuscripts. One of the activities of the fraternity which meets once a month is working with the Vanguard Theatre in connection with foreign film presentations.

Agriculture Club Activities Include Banquets, Picnics, Judging Teams

Promoting the development in agriculture by bringing the agriculture boys closer together was the purpose of organizing the Agriculture Club in 1933, according to Dr. Paul B. Starks, associate professor of agriculture.

The club will have its first meeting September 27 at 6:45 p.m. Sponsors are Dr. O. Glen Hall, head of Agriculture Department, and Harry Henderson, instructor in dairying.

The Agriculture Club is involved in campus activities. These include barnwarming, picnics, hayrides, banquets and dances. The club co-operates with the Alpha Gamma Rho fraternity in sponsoring Round-up during spring quarter. During winter quarter, the club has a banquet as its major social.

The club plans the Future Farmers of America Livestock and Dairy Judging Contest held on campus, and it promotes the sending of the Dairy and Livestock Judging Teams to the International contests at Chicago.

County agents, industrial leaders, members of the Agriculture Department from Knoxville and Martin and department heads from other universities have presented programs to the club.

At the time of organization of the Agriculture Club,

UTMB was a junior college and a man to become Tennessee Commissioner of Agriculture was its president, Edward Jones of Yorkville.

Class Enrollment Uses IBM System

This year, class cards will be taken up during the registration process, and class rolls will be printed and in the instructor's hands by September 27.

According to the registrar's office, the IBM system will be utilized beginning this fall for class enrollment and grade reporting. The Royal McBee cards, used in the past, will not be used this year. The IBM class cards will be received for each course as the Royal McBee cards formerly were.

The roll which is printed for the instructor is a temporary class roll which may be altered during the adjustment period as necessary. After the adjustment period and prior to midterm, a permanent class roll will be printed and sent to each instructor with a sheet of instructions on reporting midterm grades.

Accept Growing Pains

The University is accelerating - or escalating to use a more modern term, and expansion is usually accompanied by "growing pains." Not the least of these muscular aches of the University is the housing problem. However, workmen will have the new dorms completed very soon. One can't complain about progress. The delay may cause a slight inconvenience, but the smell of new rooms and factory fresh furniture are certainly adequate compensation for enduring a little congestion.

Welcome Freshmen!

Welcome, freshmen! Your entry into higher education is applauded by THE VOLETTE, the voice of the student body.

Because THE VOLETTE is for the students, by the student, and of the students, we welcome your assistance in reporting and your constructive criticism concerning improvement.

Co-ordinated Socks And Tops Lead Fashions On Campus

BY ANDREA JONAS

Where's the action in fall fashions? The swinging four-some from the British Isles have caused quite a stir in the fashion world. The mod look of Pic-a-dilly is "in." Grey with antique lace exemplifies the London look.

The total look is "op of pop." An argyle sweater, herringbone skirt, and above-the-knee argyle socks creates this head-to-toe co-ordinated look. Dyed-to-match knee socks produced by many manufacturers help one in achieving this look.

What's this courreges madness? The first new look of the decade is inspired by Paris designer Andre Courreges. Architectural designs for the space age are created in sueded accented by white boots and hat. The white boots are providing to be a fashion favorite. The white hat is either a modified cowboy or British lobbie cap.

Motion's the look in switcheroos--hipriders and no waistband A-lines. Sheaths are extinct. Striped sweaters combined with hemispheres striping skirts set heads spinning. Skimmers are where the action is. Suits swing with s. a. m.

Paisley is neuter along with madres (which is now established as fashion--no longer in the fad field). Both are seen in men's and women's clothes.

Sweaters have had a face-lifting. Sleeves are chopped to elbow length. The ribbed look and cable knit are unreal. With necklines as well as hemlines up, turtlenecks are in demand. Fishnet, a carry-over from summer, is shown in wood knit.

Ivy-inclined co-eds will pick the following color mates for fall: olive 'n blue, navy with cranberry, currant-pink, camel combined with grey and all heather tones.

Add these terms to your fashion vocabulary: s.a.m., sex appeal and magnetism;

hip, to know what's happening; threads, clothes; zero cool, cooler than cool; unreal, very great; what's happening, the scene, and make the scene, to be where what's happening is happening.

Miss Baker Named Yearbook Advisor

SANDRA BAKER

Miss Sandra D. Baker has been selected to serve as faculty advisor to the Volunteer yearbook staff.

Miss Baker will also fill the position of instructor in the Modern Foreign Languages beginning fall quarter.

She received the master's degree from The University of Tennessee Knoxville in 1963 and the bachelor's degree from The University of Tennessee Martin Branch in 1962. She was an honor student. During her senior and junior years at UTMB, Miss Baker served as editor and assistant editor respectively, of the yearbook.

She was French instructor in Messick High School in Memphis during the past two years.

Miss Baker is a Baptist and resides with her parents, Dr. and Mrs. William H. Baker, in Martin.

EDUCATION IS THE BEST BET

Freshman Days Are Recalled As Hectic, Humorous, Happy

BY NAWASA JONAS

As you enter the hallowed halls of this institution of higher learning, you probably wonder how in the world you'll ever make it. There are many ways one must adjust to when starting the college career. Everything usually goes smoothly with you meeting new friends, sharing ideas and learning to accept the consequences of new experiences.

I guess my freshman days were some of the greatest I have known and some of the most memorable. As a freshman you can just blunder into anything and it's pretty well accepted. The week of orientation gives the upper classmen a little room for fun. In case an upperclassman does something wrong he can look pathetic and say "I'm a freshman." Then everything's swell.

Of course the main thing that daunts the freshman adventurer is the day known as registration day. If anyone can live through that day, he has college life licked. For, no where can you find the confusion, disgust, despair or the sick feeling of being left out or trampled on. Yet there are rewarding moments when you finally get what you're after, or a teacher says, "Say, how about a Saturday class?"

I'm not saying that registration is bad, but it's a place where one learns to cope with many problems--all of them people. All the calm, reassuring smiles of the instructors help to spread sunshine and make one feel welcome.

Let me tell you about a typical day of registration.

The time is 5 a.m. The sleepy student wakes up, rushes to shower and get dressed and over to the assigned building before the mad rush. When the unsuspecting freshman arrives, he finds 10 or 15 others who had the same idea. They try to follow the signs and find how to get in the building. The signs are there to hinder and confuse--"Use north stairs" or "Do not use second floor." Now this is fine if you have a compass or a little of Daniel Boone's blood, but usually good old-fashioned blundering will help you find the way.

Once upstairs to the designated spot, you stand in line and finally reach your advisor. There's no problem here. The advisor is nice and courteous and everything goes smoothly. The next stop is utter confusion.

This room contains harried instructors, defeated students, and those much sought-after class cards. These are considered by some (students) as unimportant and by others (teachers) as probably the most important thing since Lindbergh flew the Atlantic, or was it the Pacific.

The next stop is the most

enjoyable of all--give away your money. All in all, it's a day spent making feet sore, arms tired, good friends and a lot of good memories.

The week of orientation is designed as a "get acquainted party for everyone." Then when classes do start you will find that you are at home.

One of the things that Martin has a reputation for is hospitality and good old Tennessee Spirit. School life can be hard but it can be fun. There are numerous organizations on campus eager to aid students. The Student Government Association, the Volette and the department clubs welcome student ideas and participation.

As the year goes on, there are parties, parades, ball games and dances to attend. Your studies will interest you and you'll find a satisfaction in achieving good grades.

Through the year you'll gain in knowledge, stature and confidence. Then you'll be able to watch other freshman adventurers.

First Fall Campus Election Is Scheduled For October 5

Class officers, homecoming queen and court, secretary of finance and a secretary of communications for the student government, will be elected October 5, Larry Bates, student government president, announced Thursday.

The election will be held in the Old Science Building, and the student identification card must be presented in order to vote.

Persons desiring to be a candidate for student government offices or homecoming queen nominees should pick up a petition at the student government office in the Old Science Building. This must be completed by September 28. The student government senate will narrow the field of homecoming nominees, Mr. Bates said.

He said that he would appoint the attorney general and student court and will recommend to the senate the approval of these appointments.

At the end of spring quarter, 1965, a new constitution was adopted for the student government, formerly known as the All Students Association. The new student government is separated into three departments: executive, legislative and judicial, Mr. Bates explained.

The executive powers are vested in the student government president. He is assisted by a cabinet composed of a vice-president, secretary of affairs, secretary of finance, secretary of communications, and an attorney general.

The legislative branch is the student senate which is

Total Enrollment For Fall Quarter May Reach 2,580

Total enrollment for fall quarter as of September 1 was 2,580 students, according to registrar, H.C. Allison.

Beginning students include 722 men and 398 women. Transfer students number 52 men and 37 women. Among the returning students are 879 men and 492 women.

The Education Department leads enrollment with 731 students. Liberal Arts is second with 544 and Business Administration is third with 466. The other departments in order of enrollment are Engineering, Agriculture, and Home Economics.

The enrollment of 2,580 students compares with an enrollment of 1,910 students on the same date last year. This is over a 30 percent increase.

Generally there is a small decline in the enrollment from September 1 to the enrollment date. The anticipated actual enrollment is 2,500 which is 650 more students than last year.

comprised of a senator from each approved campus organization. This branch considers and votes on policies, practices and activities that affect the students. Any student can observe senate meetings, he added.

The judicial branch is the student court. This is composed of chief justice and four associate justices appointed by the student government president and approved by a two-thirds vote of the senate.

Letter To Editor

Dear Editor:

I would like to use this opportunity to say how happy I am to be associated with UTMB. I am anxiously anticipating meeting, talking and working with students and faculty.

Through this channel I welcome all students to the Fall Quarter at UTMB. This includes the newcomers and the "old folks". I do hope that as the quarter begins everyone will "get in the swing" of things as soon as possible. It is by participating - in the dormitory, in class, in church, and in social activities - that students get the most out of college life.

I'd also like to say that my door is always open. Don't wait until there are problems to come see me. Just drop by and say "Hello" sometime.

Sincerely,
Mrs. Julia E. Austin
Dean of Women

Alpha Gamma Rho To Complete Fraternity House Remodeling Soon

Construction and remodeling of the Alpha Gamma Rho fraternity house will be completed soon, Buddy Mitchell, president, said Thursday.

These modern facilities will include a new dining room and kitchen, extra space for the housemother's quarters and enough room at capacity to house about 52 brothers.

The new dining room will accommodate 60 people for meals which will solve the problem of having to eat in two shifts when the chapter is entertaining guests. The dining room can also be turned into a party room for socials which the brothers wish to hold in the chapter house. The new kitchen will be furnished with all new appliances.

The old kitchen has been remodeled and has been made

available as an extra room for the house mother.

There are going to be two boys to a room in most of the new part and four boys in some of the old rooms. The new closets in all of the rooms have plenty of room to hang clothes and also plenty of drawer space to store the smaller things. The whole house is much roomier in every respect and will relieve the slightly cramped conditions which have existed in the past, Mr. Mitchell said.

Business Men Join Alpha Kappa Psi

Male students who have completed four academic quarters of college work in the business curriculum are eligible for consideration for membership in Alpha Kappa Psi, professional business fraternity.

The Zeta Chi Chapter of Alpha Kappa Psi was installed at The University of Tennessee Martin Branch May 29, 1965. Alpha Kappa Psi, founded in 1904, is the oldest national professional business fraternity.

Sponsors of Zeta Chi Chapter are members of the business administration faculty, Howard E. Jones, Jr., and William H. Holley, and Dr. William H. Baker, head of the Business Administration Department.

One of the purposes of the fraternity, Dr. Baker said, is to advance both the professional standing of those who pursue business careers and to acquaint students with the opportunities available for work in the field.

The objectives of the fraternity summarize the function of Zeta Chi Chapter at UTMB, he added. To further the individual welfare of its members; to foster scientific research in areas of economics and related fields; to educate the public to appreciate and demand higher ideals and to promote and advance in institutions of college rank courses leading to degrees in business administration are the objectives of the fraternity.

Mu Epsilon Delta To Meet October 4

Pre-medical and pre-dental students can attend the meeting of Mu Epsilon Delta, newly organized pre-professional fraternity, October 4, David Oliver, president, announced September 15.

The program will be especially designed for non-members who are interested in applying for membership, he said.

The first meeting of fall quarter will be September 27, which will be an organizational meeting and open only to current members.

Membership in the fraternity, formed last spring quarter, is open to any student in the pre-medical or pre-dental curriculum who has had at least one quarter of college work and meets certain scholastic and general character requirements. Although first quarter freshmen may not be considered for admission, they can attend the monthly meetings of the fraternity in order to learn more about its purposes and its program, Mr. Oliver explained.

The fraternity exists, he said, for these purposes: promoting high scholarship; preparing the pre-medical and pre-dental students for the years ahead of them in their chosen professions, and keeping interests in their studies at a high level.

Honorary members and sponsors for the fraternity are Dr. O.K. Smith, Martin physician, and Glen Bremer, chemistry instructor.

Business Group Schedules Meeting Next Monday Night

The Business Club, organized in 1927 with leadership as one of its main purposes, is the professional club for students majoring in the business curriculum, Dr. William H. Baker said Monday. Dr. Baker is head of the Business Administration Department at The University of Tennessee Martin Branch and a sponsor.

The club will hold its first meeting of the school year September 27 at 6:45 p.m. in the Administration Building, which will be a time to acquaint students with the club, sponsor Wesley Fortner, associate professor of accounting, said.

Officers are elected quarterly, which gives students a chance to get experience, Mr. Fortner said.

One of the objectives of the club, Mr. Fortner added, is to acquaint the student with the many phases of business life. The club meets once each month, and speakers from areas of business administration often present the program. Members of the club and faculty form panel discussions on aspects of the University for some of the programs.

It is through the club that faculty members can become better acquainted with the students, Mr. Fortner commented.

The main event of the club is the Business Club Banquet. The speaker at the banquet last spring was Dr. Arthur Warner, dean of the College of Business Administration at the University of Tennessee, Knoxville.

Members of the Business Club organized the business fraternity for men, Alpha Kappa Psi, last year, and it is now considering planning and organizing Phi Chi Theta, national fraternity for women in business and economics, Mr. Fortner stated.

Letter Students Can Join "T" Club

Students who earn a school letter at the University are eligible for membership in the "T" Club.

To promote better school spirit in competitive sports, to encourage closer ties of friendship among members, and to build a spirit of loyalty to the University and the Athletic Association are some of the purposes of the club, Sponsor Coach James C. Henson stated.

Sponsoring dances after athletic events and the awarding of trophies to outstanding athletes of football, basketball, baseball and tennis are some of the club's activities Coach Henson added. The club's first meeting will be September 29 at 6:45 p.m. in the Physical Education Building.

ISA Membership Now Open To All Independent Students

Students who are not actively affiliated with a social fraternal organization are eligible for membership in the Independent Students Association.

David Sammons, ISA president last year, said that regular scheduled meetings are held the second Monday of each month. At the end of the school year 1964-65, ISA membership had risen to over 100 members.

Socials, spring retreat, independent men's basketball tournament and a mixed softball tournament are some of the activities of ISA.

ISA leaders are planning another year of activities that will pursue their objectives of increasing interest and participation among the non-Greeks, he said.

The association was organized during spring quarter 1964 with these objectives: to unite the non-sorority and non-fraternity students and to see that they are made conscious of their opportunities on campus; to gain equal representation and participation for activities and to encourage the support, promotion and the advancement of the independent students and the University.

Agriculture Men Form AGR Frat.

Alpha Gamma Rho, social and professional fraternity, is composed of students majoring in agriculture and related fields.

A national fraternity with 43 chapters and 21,000 members, AGR installed the Alpha Upsilon Chapter on the campus in 1963. Last year at the National AGR Convention, it received the progress award, an honor bestowed upon the chapter making the most notable advancement. AGR has also won trophies in fraternal competitions.

Social activities scheduled for the year include three quarterly socials and an array of informal parties. The chapter house at 225 University Street, a colonial styled structure recently renovated, will accommodate 50 men.

Forty-Nine New Faculty Appointments Have Been Added To University Staff

Forty-nine new members have been added to The University of Tennessee Martin Branch faculty, announced Dr. Paul Meek, vice-president of the University of Tennessee in charge of Martin Branch.

Benjamin F. Kimbrough will be instructor in social sciences.

He is working toward the doctorate degree from Oklahoma State University. His undergraduate work was done at Oklahoma Baptist University.

Mr. Kimbrough was vocational and personal guidance counselor with the Texas Employment Commission in Dallas.

Mr. and Mrs. Kimbrough and child came to Martin from Hurst, Texas.

Charlie W. Gammill joins the UTMB staff as instructor in engineering-mathematics.

He holds the master's degree in engineering from the University of Southern Mississippi and the bachelor of science degree from Delta State College.

Mr. Gammill was an instructor in mathematics at Perkinston College, Mississippi State University and the Mississippi Extension Center in Biloxi.

Mr. Gammill is a Methodist. He and his family came to Martin from Baton Rouge, Louisiana.

William M. Morrow joins the teaching staff as assistant professor in social sciences.

Previously he served as assistant professor of political science and history at Oklahoma Christian College for three years.

Mr. Morrow, who is working on his doctorate at U-T Knoxville, received the master of arts degree from Vanderbilt University.

A member of the Church of Christ, Mr. Morrow is married and has two children.

James W. Lea will be instructor in engineering-mathematics beginning fall quarter.

He received the master of arts degree from Tennessee Polytechnic Institute in 1965 where he was a graduate teaching assistant.

Mr. Lea is a Baptist and came to Martin from Cookeville.

Robert T. Wood joins the faculty as instructor in English.

He earned the bachelor of arts degree from Vanderbilt University in 1964 and is a candidate for the master's degree from the University of North Carolina in January, 1966.

Mr. Wood is an Episcopalian and lives at 115 Summer Street.

Mrs. Julie E. Austin joins the faculty as acting instructor in sociology and acting assistant Dean of Women.

She earned the master's degree in social work at Louisiana State University in 1964, and the bachelor of arts degree at Arkansas College.

Mrs. Austin was a welfare worker in East Feliciana Parish, Clinton, Louisiana, and a child welfare trainee and aide in Haniburg and Little Rock, Arkansas, respectively.

A Presbyterian, she and her husband moved to Martin from Memphis.

M/Sgt. James B. Pruitt will serve the Military Department as sergeant major of the instructor group.

M/Sgt. Pruitt has served tours of duty in Berlin and Japan.

He and his wife and their three daughters live on Route 1, Martin.

Mrs. Martha Y. Battle will be instructor in English.

She received the master and bachelor's of arts degrees from the University of Kentucky.

She is a Presbyterian and will commute from her home at 1103 Main Street, Murray, Kentucky.

Dr. Charles R. Mangam was appointed professor and head of the English Department.

From 1961-1965 he was professor of English in the Georgetown University Language Program in Ankara, Turkey.

He received the doctor of philosophy degree from Cornell, holds the master's degree from State University of Iowa and the bachelor's degree from Amherst.

He is a Presbyterian. Dr. and Mrs. Mangam live on Route 4, Martin.

Marshall F. Priest will be laboratory assistant in biological sciences.

He received the bachelor of science degree in education from UTMB in 1965.

Mr. Priest is a Methodist and is from Huntingdon.

Joseph M. Riddick will fill the position of instructor in English.

He received the master of arts degree from Vanderbilt University in 1965 and the bachelor of arts from David Lipscomb in 1963.

Mr. Riddick moved to Martin from Nashville.

Miss Elizabeth A. Pugh will be instructor in physical education.

She earned the master of science degree from The University of Tennessee in 1965 and the bachelor of arts degree from Shepherd College in 1964.

She is a Methodist.

Howell W. Todd will be laboratory assistant in physical sciences.

He received the bachelor of science degree from UTMB in 1965 and has been a substitute teacher in the Clarksburg High School.

Mr. Todd is a Baptist and lives in Yuma.

Dr. Jimmy N. Trentham will fill the position of assistant professor in biological sciences beginning fall quarter.

He was awarded the doctor of philosophy degree from

Vanderbilt University in 1965.

Dr. Trentham was instructor in the Department of General Biology at Vanderbilt in the summer of 1964.

Dr. and Mrs. Trentham came from Nashville. He is a Methodist.

Mrs. Johnnie W. Stout will join the staff as instructor in music.

She holds the master of music degree from Indiana University and the bachelor of arts degree from New Mexico State University.

Mrs. Stout has taught vocal music and directed choirs in the public schools at Wellman, Iowa; Las Cruces, New Mexico, and New Mexico State University.

She is a Unitarian and with her two children lives on Fonville Extended.

Phillip H. White will be laboratory assistant in biological sciences.

He received the bachelor of science degree in education from UTMB in the spring of 1965.

He is a Catholic. Mr. and Mrs. White live at 99 Moody Avenue.

Floyd R. Stuart joins the staff as instructor in English.

He received the master of arts and bachelor of science degrees from Memphis State University.

Mr. Stuart, a Presbyterian, is from Stanton.

John P.N. Whittenberg has

Capt. Jack E. Adame

Howell W. Todd

Ronald Stirlacci

been appointed instructor in history.

He earned the master and bachelor's of arts degrees from Marshall University and is working on the doctorate degree at the University of

Virginia.

Mr. Whittenberg came to Martin from Huntingdon, W. Va. He is a Catholic.

Thomas F. Wallace will be part-time instructor in physical sciences for the fall

quarter.

Mr. Wallace operates his own business, Tenarkymo Industries in Union City.

He is a member of the Church of Christ. Mr. and Mrs. Wallace live at 203 North Ury in Union City.

Walter E. Walker will be instructor in business administration beginning fall quarter.

He earned the master of arts degree from Mississippi State University in 1965 and the bachelor of science degree there in 1964.

Mr. Walker is an Episcopalian. He and Mrs. Walker and their two children moved from State College, Mississippi. They live in a Beaumont Street apartment.

Joseph N. Kanianthra will be instructor in agriculture engineering.

He received the master of science degree from the University of Massachusetts in 1965 where he worked under a research fellowship.

Mr. and Mrs. Kanianthra and child moved from Amherst, Massachusetts.

Lonnle E. Maness will fill the position of instructor in history.

He received the master and bachelor's degrees of science from the University of Wisconsin and has done additional work leading to the doctorate.

A member of the Church of Christ, he and Mrs. Maness and their two children live at 100 Burchard Street.

Miss Miriam G. Little will be instructor in physical education.

She earned the bachelor of science degree from East Carolina College in 1964 and did graduate work at U-T Knoxville under an assistantship during 1964-65 where she is a candidate for the master's degree.

Miss Little is a Methodist and lives on Summer Street. She is from Greenville, N.C.

Captain Carlton Robert G. Edison, artillery, has joined the faculty as assistant professor of military science.

Captain Edison entered the military service in 1959 and is a graduate of Wake Forest College where he received the bachelor of science degree in general science.

Captain and Mrs. Edison make their residence on the Fulton Highway.

Captain Jack E. Adams, infantry, has joined the Military Department.

Previously he was on duty in Korea and Vietnam.

Captain Adams received the bachelor of science degree from the United States Military Academy.

Captain and Mrs. Adams and their two sons live at 303 University Street.

William W. Holt, Jr. has been named instructor in English.

Mr. Holt received the master's and bachelor's of arts degrees from Louisiana State University.

He is an Episcopalian and came from Bastrop, Louisiana.

Miss Karen S. Johnson has

been named instructor in English beginning fall quarter.

She met the requirements for the master of arts degree at the Michigan State University in August, 1965.

She is a Baptist and lives at 113 University Street.

Charles W. Joyner has been appointed assistant professor in social sciences.

A candidate for the doctor of philosophy degree from the University of South Carolina in 1966, Mr. Joyner holds the master of arts degree from that institution and the bachelor's degree from Presbyterian College.

Mr. and Mrs. Joyner live on Parrish Extended and came from Concord, N.C. He is a Presbyterian.

Edward F. Lanning will fill the position of instructor in music.

He earned the master's degree in music and the bachelor's degree in music education from the University of Tulsa in 1963 and 1962, respectively.

He and Mrs. Lanning and two children moved from Tulsa. Mr. Lanning is a Methodist.

Larry W. York assumed the duties of bursar in the Business Office August 1.

He received the bachelor of science degree in business administration at UTMB in 1965.

Mr. and Mrs. York and their two children live at 335 Peach Street.

William H. Holley, Jr. will be affiliated with the Department of Business Administration as an instructor.

Prior to his joining the staff, he served as instructor in economics at Mississippi State University where he earned the master's degree in business administration in 1965.

Mr. Holley, who is a Methodist, formerly resided in Clarksdale, Mississippi.

Walter E. Hoffman will serve as a laboratory assistant in the physical sciences this academic year.

He received the bachelor of science degree in education from UTMB in 1965.

Mr. Hoffman is a member of the United Church of Christ, and is a native of Waterloo, Illinois.

Mrs. Sandra A. Gossum will fill the position of engineering-mathematics instructor.

She earned the master of arts degree from the University of Illinois in 1964 and the bachelor of science from Murray State in 1960.

Mrs. Gossum, who lives in Fulton, Ky., has taught at Paducah Jr. College and Heath High School in West Paducah.

Mrs. Laurie M. Grennan has been appointed assistant professor in physical sciences.

She is a candidate for the doctor of philosophy degree from Iowa State University this year and earned the master and bachelor of arts degrees from Wellesley and Randolph-Macon, respectively.

Mrs. Grennan, who is an Episcopalian, and her five children moved from Ames, Iowa.

E. J. Eaton has been named instructor in music.

Before joining the staff, he

was head of the instrumental Music Department at Osceola, Iowa.

Mr. Eaton earned the master of music degree at Boston University and the bachelor's degree at Morning-side College.

He and Mrs. Eaton live at 102 Hampton in Martin. They are Methodists.

Miss Ethel Ruth Gandy will fill the position of instructor in the social sciences.

She received her master of arts degree from Peabody College for Teachers.

She is an Episcopalian and moved from Edwards, Miss.

Specialist E5 Ronald J. Stirlacci has been assigned to the Military Department as an administrative assistant.

Specialist Stirlacci is a native of Massachusetts. He and Mrs. Stirlacci and their two daughters live on Route 1, Martin.

Billy Ray Austin has been named instructor in engineering-mathematics.

Mr. Austin has been an instructor at Christian Brothers College in Memphis. He and Mrs. Austin moved from Memphis.

Mr. Austin is a Presbyterian.

Jerry R. Brown will be an instructor in engineering-mathematics.

He earned the master of arts degree from Louisiana State University in 1964.

A member of the Church of Christ, he and Mrs. Brown and their two children moved from Whitewright, Texas.

Mrs. Bobbye G. Crutchfield will fill the position of instructor in the library.

She is a candidate for the master's degree at Southern Illinois University.

She and her husband, Otis, and daughter live at 501 Browder Street, Fulton, Ky.

Shakti K. Ailee will assume his duties January, 1966, as assistant professor in chemistry.

Mr. Ailee received the master and bachelor's degrees from Panjab University, Chandigark, India, in 1958 and 1956, respectively.

Mr. Ailee is married and

has one child.

Jack S. Beeler has been appointed assistant professor in physical education and also will serve as defensive back-field coach for the UTMB Vols.

Last year Mr. Beeler was assistant football coach at Indiana University.

The Beelers and their three children live on the Fulton Highway. He is a Methodist.

Wallace R. Maples joined the staff August 1 as Admissions Counselor.

Mr. Maples received the master's degree in educational psychology from U-T Knoxville in 1965 and the bachelor's degree in social sciences from Middle Tennessee State College in 1963.

Vols Will Meet Arkansas Team In Opener Of The Season

With the UTMB Volunteer's season opener with Arkansas State Teachers here Saturday night, Sept. 18, head Coach Robert Carroll is still apprehensive about his offensive attack.

The Vols, who ended two-a-day practice sessions last Friday, have been working hard this week on refining their offensive thrust which according to Coach Carroll was somewhat weak last year.

Last year the Vols lost a frustrating game to Arkansas State 7-0 in Conway, Arkansas. Although the Vols dominated the game statistically, untimely fumbles and penalties stalled every Volunteer scoring opportunity. The Teachers scored what proved to be the game winning touchdown late in the third quarter on a 16-yard pass play.

The Teachers have 30 lettermen returning to a squad which had a 5-4 record and finished third in the Arkansas Intercollegiate Conference last year.

In the series history the ASTC Bears hold a 5-2 margin over the Vols.

Bothered by the usual rash of sprains and bruises, the Vols have also suffered several more serious injuries to key players. Offensive tackle Wilt Marchman has sustained a separated shoulder and cracked collar bone. Big 260-pound defensive tackle Ron Lewellen injured his knee in last Monday's scrimmage and is not expected to see action against the Teachers. Starting tailback Larry Shanks, one of the Vols' leading ground gainers last year, also suffered a knee injury but is expected to be ready for Saturday night's lid-lifter.

Although the scrimmages have shown encouraging results, Coach Carroll said the blocking and tackling has not been as crisp as it should.

This year's schedule will undoubtedly be the toughest yet for the Vols. Having dropped three of the four teams they beat last year, the Orangemen have picked up Bradley University of Peoria, Illinois, and Northwestern Louisiana of Natchitoches. Both Bradley and Northwestern Louisiana have highly rated teams and are reputed to play a brand of football comparable to UTMB's Ohio Valley Conference opponents. Bradley's quarterback, Bob Caress, finished second in the nation's small college passers last year.

Even though the Volunteers have 24 returning lettermen, several newcomers will dot the Vol lineup for this year's opener.

At offensive end will be Larry Krouse. A redshirt last year Krouse played well in the Spring game catching two TD passes. At the other end will be junior letterman John How-

ard. Having played defense his first two years, this will be John's first year as an offensive end, but the coaches feel he can make the change. Another redshirt, Julian Nunamaker, has been moved from end to tackle this year, and in the backfield is fullback Bobby Hayes who transferred here in the spring.

New men on the defensive team are linebacker Wayne Bailey and tackle Glenn Bullock.

Offensively the Vols will have John Howard and Larry Krouse, ends; Gary Dobie and Julian Nunamaker, tackles; Billy Monk and Lorry Ruth, guards; John Jenkins, center; Sandy Smith or Allan Cox, quarterback; Larry Shanks, tailback; Mack Moody, wingback; and Bobby Hayes, fullback.

On defense the line-up will be as follows: Captain Jim Hammond and Kenny Dickson, ends; Ed Cochran and Glenn Bullock, tackles; Nemon Conley, middleguard; Roy Cook and Wayne Bailey, linebackers. In the defensive secondary will be Ray Geddings, Howard Finley, Gene Hardy, and Steve Allison.

In reserve the Vols have ends Tom Trytek, Tom Lindsey, Jim Fuller, and Peirce Braun. Tackles include Jerry Sandras, Lee Mayo and Enoch McCarter. The guards are Joe Roberts, Donnie Cox, Bobby Maupin and Sam Palazolo. Centers are Tom Young and Robert Horner.

At quarterback are Doc Holliday, Erol Hook and Tommy Mann. At wingback, Bill Starling. Tommy Baker is at tailback and Jerry Gage, Van Smith, Bruce Riley are fullbacks and Jim White a defensive specialist.

Grenadiers Form Marching Group

Grenadiers form as a drill team during ROTC functions and represent the college in parades throughout West Tennessee and Southern Kentucky, according to Major Milton Killen.

These men are permitted to wear boots, orange scarves, and lanyards. They receive this recognition for the many extra hours of drill practice necessary to perform well.

The Grenadiers have earned a reputation for doing well on any assigned mission. They have acted as ushers at various functions throughout the years. They have one social function each quarter and one young lady is selected as their sponsor each year.

Any cadet interested in joining the Grenadiers must have an aptitude for fancy drill and must be willing to spend much extra time in practice. The Grenadier must maintain a C average. Announcements covering further procedures for membership will be made during class periods.

Hammond Selected As Vols Captain

The University of Tennessee Martin Branch Vols football team has selected three new captains for the 1965 season.

Jim Hammond, Lorry Ruth, and Sandy Smith were elected by the players following the spring game on the basis of leadership, dedication, desire, and ability. These men will be responsible for instilling pride and determination into the rest of the players.

The captain is senior Jim Hammond, a 6'1" 196 pound defensive end. Jim has earned three letters at UTMB and according to Coach Carroll is endowed with tremendous desire. An excellent defensive end, Jim also has the ability to play offense if the occasion arises.

A physical education major, Hammond hails from Macon, Georgia, where he played at Willingham High under coach Billy Henderson.

In addition to being a fine athlete, Jim won the student government award last year.

The alternate captains are senior guard Lorry Ruth and junior quarterback Sandy Smith.

Lorry will be trying for his fourth letter this year and will be a mainstay in the Vol's offensive line. Lorry, who is only 5'8" and weighs 199 lbs. makes up for his lack of size in hustle and determination. A fierce blocker, Lorry is also one of the quickest interior linemen.

Lorry makes his home in Knoxville where he was All East - Tennessee in high school. Majoring in education Lorry is an all around top student and battalion commander in the ROTC program.

Junior quarterback Sandy Smith is the other alternate captain. Sandy was formerly a tailback but the two year letterman was moved to quarterback following the spring practice. The 5'10", 171 lbs. Smith is fast developing into a fine passer. In the spring game Sandy hit over 50 per cent of his tosses. Sandy has fine moves and is one of the most dedicated men on the team.

Sandy is majoring in education and plans to enter the ministry.

From North Augusta, S.C., Sandy was coached in high school by Cally Gault.

Interested Students
Sign Up For Motorcade

Students desiring to attend the Middle Tennessee-University of Tennessee Martin Branch football game at Murfreesboro, September 25, can register for the bus trip at a table during registration, Larry Bates, student government president, said Thursday.

Benson Has Been Appointed Sports Information Director Here

Bill Benson, a sophomore in business administration,

BILL BENSON
has been selected to serve as Sports Information Director for the coming year.

Benson attended high school in Fort Walton Beach, Florida, where he was a member of the Beta Club and captain of the football team. He was also "C" club president, Key Club secretary, and for two years a member of the all-conference football squad.

Since his arrival Benson has played football one year and is now treasurer of the Volunteer Lodge. He is an honor roll student.

His job is to spread and publicize the athletic program at UTMB. In working with news media in the area, he will have a media mailing list of 75 for football news including television, radio, and newspaper.

Working through the Office of Public Relations, Mr. Benson will assist in the composing of sports brochures.
